**Dear Mr. Sherpa and Mr. Thapa:**

**Before I present to you my talk at the Ministry of Tourism in Kathmandu, relating to, allow me to present my warmest congratulations to USNepalOnLine, which I found to be a massive highway bridge between Nepal and the entire world.**

**No country can afford being an Island nowadays, and without adjusting to the big world around us, no society can survive.**

**USNepalOnLine is doing a tremendous service to its glorious country by presenting it to the world, and serves the globe greatly by affording it vital knowledge about Nepal. Tourists, students, business operators, journalists and politicians benefit from the priceless information that is exposed through this very important window to Nepal, and not less important, from Nepal. All of us should do our best to widen this important two-way window of vital information, delivering the fresh air of needed knowledge!**

**Again, Warmest congratulations for your most successful first of operation!**

**Sincerely**

**Ranan Lurie**
